EXPERIENCE

SOFTWARE ENGINEER | VROOM | NYC | NOV 2017 - PRESENT

Managed the development of B2C microservices and front-end tools essential to the scaling of a growing billion dollar e-commerce company. Actively contributed to and formalized the code review process. Achieved Scrum Master Certification.

ASSOCIATE FULLSTACK ENGINEER | VROOM | NYC | MAR 2017 - NOV 2016

Architected microservices on Google Cloud Platform (App Engine & Container Engine) in Node.js (Express) and Python (webapp2), added features to flagship site using React, Redux and SCSS, oversaw integrations for Stripe and Twilio APIs.

RESEARCH ASSISTANT | MCGILL UNIVERSITY | MTL | MAY 2015 - JUN 2016

Presented original research on syntax and semantics of endangered language at four competitive conferences. Assisted in language revitalization efforts, grant writing, curriculum development, UI/UX design and coding for language-learning website.

UX/UI INTERN | IVERSITY | BERLIN | FEB 2015 - JUN 2015

Researched, designed and presented full mock-up of a mobile app using Adobe Illustrator CC, InVision App and A/B testing. Updated assets for website.
